

# **What Discussions do Artist Publishers Want to Have?**

Where can artist publishers, zine makers, librarians, artist book archivists, print activists, and others in this self-organized community hang out when there isn't a fair, a fest, an event, or gathering to bring us together?

We have created an online discussion forum for artist book publishing called Artist Publisher. Please visit the site, spread the word, and join us in multiple discussions around artist book making, zine publishing, printing, distribution, archiving and more.
